

MEDICAL SERVICES AND FIRST-AID

- ☐ Is there a hospital, clinic, or infirmary for medical care in proximity of your workplace?

Action to be Taken

Assigned To:

- ☐ If medical and first aid facilities are not in proximity of your workplace, is at least one employee readily available to render first aid?

Action to be Taken

Assigned To:

- ☐ Have all employees who are expected to respond to medical emergencies as part of their work²
- (1) received first-aid training;
 - (2) had hepatitis B vaccination made available to them;
 - (3) had appropriate training on procedures to protect them from bloodborne pathogens, including universal precautions; and
 - (4) have available and understand how to use appropriate personal protective equipment to protect against exposure to bloodborne diseases?

Action to be Taken

Assigned To:

- ☐ Where employees have had an exposure incident involving bloodborne pathogens, did you provide an immediate post-exposure medical evaluation and follow-up?

Action to be Taken

Assigned To:

- ☐ Are medical personnel readily available for advice and consultation on matters of employees' health?

Action to be Taken

Assigned To:

- ☐ Are emergency phone numbers posted?

Action to be Taken

Assigned To:

Medical Services and First-Aid

- ☐ Are first-aid kit supplies, when required, adequate for a particular area or operation?

Action to be Taken

Assigned To:

- ☐ Are means provided for quick drenching or flushing of the eyes and body in areas where corrosive liquids or materials are handled?

Action to be Taken

Assigned To:

² Pursuant to an OSHA memorandum of July 1, 1992, employees who render first aid only as a collateral duty do not have to be offered pre-exposure hepatitis B vaccine only if the employer puts the following requirements into his/her exposure control plan and implements them: (1) the employer must record all first-aid incidents involving the presence of blood or other potentially infectious materials before the end of the work shift during which the first-aid incident occurred; (2) the employer must comply with post-exposure evaluation, prophylaxis, and follow-up requirements of the standard with respect to "exposure incidents", as defined by the standard; (3) the employer must train designated first-aid providers about reporting procedure; (4) the employer must offer to initiate the hepatitis B vaccination series within 24 hours to all unvaccinated first-aid providers who have rendered assistance in any situation involving the presence of blood or other potentially infectious materials
